**WHC_PLN_ROC_POLLUTION INCIDENT RESPONSE MANAGEMENT PLAN -
EXTERNAL**

The following information must be provided in accordance with Section 150 of the POEO Act:

- The time, date, nature, duration and location of the incident,
- The location of the place where pollution is occurring or is likely to occur,
- The nature, the estimated quantity or volume and the concentration of any pollutants involved, if known,
- The circumstances in which the incident occurred (including the cause of the incident, if known),
- The action taken or proposed to be taken to deal with the incident and any resulting pollution or threatened pollution, if known,
- Other information prescribed by the regulations.

In addition to the above agencies, notifications about the incident may also be required to be made outside of the requirements of this Plan. Additional notifications will be considered on a case by case basis and will generally be made to the regular Officer of the relevant Department.

2.3 Community

The site may partake in an awareness campaign, or campaigns, for relevant neighbours and community members prior to any incidents occurring so that those individuals are prepared in the event of an incident occurring.

In the event of a notifiable pollution incident occurring, which impacts on neighbouring properties or the wider community, the affected landholder/s will be notified about the incident as soon as possible and informed as to any measures that could minimise the risk of harm as well as the control/containment and clean up mechanisms to be applied.

The type and frequency of follow up correspondence on the incident will be determined on a case by case basis.

Details for neighbours and other relevant community members (contact details, location in relation to the site etc) are provided as an appendix in the internal version of the Plan.
