The Winchester South Project Mining Lease Applications (MLA700049, MLA700050 & MLA700051) were lodged with the Department of Natural Resources, Mines & Energy (DNRME) in June 2019.

An Initial Development Plan was submitted to DNRME as part of the Winchester South Project Mining Lease Applications. The Initial Development Plan is planned to be updated in early 2021 following completion of the Winchester South Project Prefeasibility Study. The Winchester South Infrastructure Mining Lease will be incorporated into the Initial Development Plan as part of this update. Subsequently no separate Initial Development Plan will be submitted as part of the Winchester South Infrastructure Mining Lease Application.
