

Vickery Site Monitoring

 PM1 Air Quality (PM _{2.5})=
Average reading for 24hr period 00:00 – 23:59 hrs on 11 April 2025
4.7 µg/m ³
Operational Response: No Action Required

1. *PM_{2.5}: particle matter 2.5 micron or less in size.*
 (C): recalculation of the 24hr average as some data unavailable due to rain, power or communications.
 * N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.

 PM1 Air Quality (PM ₁₀)=
Average reading for 24hr period 00:00 – 23:59 hrs on 11 April 2025
9.6 µg/m ³
Operational Response: No Action Required

2. *PM₁₀: particle matter 10 micron or less in size.*
 (C): recalculation of the 24hr average as some data unavailable due to rain, power or communications.
 * N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.

 PM2 Air Quality (PM _{2.5})=
Average reading for 24hr period 00:00 – 23:59 hrs on 11 April 2025
5.5 µg/m ³
Operational Response: No Action Required

3. *PM_{2.5}: particle matter 2.5 micron or less in size.*
 (C): recalculation of the 24hr average as some data unavailable due to rain, power or communications.
 * N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.

 PM2 Air Quality (PM ₁₀)=	
Average reading for 24hr period 00:00 – 23:59 hrs on 11 April 2025	
16.3 µg/m ³	
Operational Response:	
No Action Required	

4. PM₁₀: particle matter 10 micron or less in size.
 (C): recalculation of the 24hr average as some data unavailable due to rain, power or communications.
 * N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.

The real time noise monitor is used as operational management tool (no criteria apply)

 Noise Monitor 01 (LF) ²³			
Average reading for the period of 11 April 2025			
Day: 7am-6pm	Evening 6pm-10pm	Nights 10pm-7am	
25.3 dB(A)	26.4 dB(A)	24.8 dB(A)	
Operational Response:			
No Action Required - Continue Monitoring			

5. LF is estimated equivalent mining noise (LF = low frequency for band 20-630 HZ); Monitoring results may include noise from other sources.
 *Elevated levels affected by non-related mining event.
 N/A: N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.
 (C): recalculation of the average as some data unavailable due to rain, power or communications.

 Noise Monitor 02 (LF) ²³			
Average reading for the period of 11 April 2025			
Day: 7am-6pm	Evening 6pm-10pm	Nights 10pm-7am	
23.6 dB(A)	28.7 dB(A)	27.5 dB(A)	
Operational Response:			
No Action Required - Continue Monitoring			

6. *LF is estimated equivalent mining noise (LF = low frequency for band 20-630 HZ); Monitoring results may include noise from other sources.*
**Elevated levels affected by non-related mining event.*
N/A: Data Not available due to servicing, power outage, communication issue or when wind is greater than 3m/s or its raining over the monitoring period.
(C): recalculation of the average as some data unavailable due to rain, power or communications.

 Weather
Operational Response:
No Action Required – Continue Monitoring
Weather condition and forecast is available at: http://www.whitehavencoal.com.au/weather/
